Langley, BC
V1M 3B4

We had searched for the right home for many months and could not find one to meet our high expectations on quality building and finishes. Then we found our VanMar home which both met and exceeded our expectations. Our experience from purchasing the home, choosing our final finishes, pre-delivery inspection, moving in, and living in a VanMar home has been wonderful.

Coming from a custom home background, I was pleased to find that the home met my high expectations on quality workmanship and built form. The interior finishes that we picked are perfect and we were impressed with the level of standard finishes offered and the quality in which they were completed.

The customer service provided by VanMar was unsurpassed and after sales support was excellent. Any issue or concern was dealt with in a timely manner and professional fashion. While our neighbours are constantly fighting with and complaining about their "cookie cutter" builders, we have nothing but praise for VanMar.

We have had many visitors and all are impressed with level of quality and design of our new home. Based on our personal experience, we would recommend a VanMar home to anyone.

We wish to extend a very special thank you to Mike for his attention to detail, customer service and his patience when dealing with buyers as particular as we were.

Sincerely,

Gary & Kim
